

Patient Participation

Update Monday 30th November

We have reached our target of administering influenza vaccinations to the over 65 years of age patients. The target was 77% we have achieved 79 %.

We will shortly be starting to administer the over 50's influenza vaccination the first clinic being held on Saturday 13th December. Please phone the surgery after Wednesday to book your appointment.

At the moment we are no closer to opening up the surgery regarding Covid-19. Please do not hesitate to phone the surgery for any health concerns/queries that you may have for a telephone consultation and then if the doctor deems it necessary for you to come in to the surgery they will arrange this. This is regarding your safety and we have to follow the government guide lines due to Covid-19.

We will keep you updated regarding any news of the Covid Vaccination as soon as we hear anything ourselves.

We wish all of our patients a Merry Christmas and a Happy New Year and hope to see you all soon.
